- Number of times to be shown or distribution period
- Video
- Time on screen
- Number of copies to be produced
- Years of planned distribution

The means of delivery to end user will be via:

- Commercial means (sold to the public for a profit)
- Non-commercial (given away for free or for nominal charge)

Compensation for Image Use

I propose the following payment terms for use of this image:

Fair Use Request

I request that all usage fees be waived because in my opinion the proposed use substantially meets the criteria of "fair use" as defined in US statute section described below:

Purpose and character of the use (Use is more nonprofit educational than commercial) Provide criteria.

Nature of the copyrighted work (Use is more non-fiction than fiction. It is out of print and not the first publication of an original work) Provide criteria.

Amount (Relatively little of the work is copied -- a detail or for paintings or prints only a very limited number of an artist's works in small format will be reproduced) Provide criteria.

Affect on the market for the original (Original image is out of print or proposed product will show low resolution images, not of a quality to be confused with the original). Provide criteria.
